

Conferences

Since CLIME is a national organization, one way that we can get together is at conferences. Here is a list of the conferences at which there will be CLIME meetings.

NCTM Annual Meeting, *Anaheim, CA, April 8 to 11, 1987*

CLIME Mtg. is April 9, 5:00 to 7 PM, Room number to be announced. Chairing the meeting will be George Bright.

The agenda for the CLIME meeting will be set soon. If you are planning to attend and wish to influence the agenda, please contact George Bright.

To help you plan your Anaheim meeting, those sessions having Logo in the title are listed on page 7.

East Coast Logo Conference, *Arlington, Va. April 2-4, 1987.*

The CLIME meeting is April 3 in the afternoon. CLIME will be hosting a panel discussion on the "The Role of Logo in Mathematics Education". The session will feature some prominent mathematics/Logo educators as panelists who will share their ideas and respond to questions from the floor. This will be a good opportunity for people who are interested in Logo's impact on mathematics education to exchange ideas.

One of the topics to be discussed is a widespread matter of concern. Sandy Dawson points out (LX, 2/87, p. 19) that wherever Logo is learned, mathematics is being learned, but many math teachers claim they do not have the time to teach both Logo and the obligatory traditional curriculum. This

apparent conflict needs attention and resolution. This should be a valuable session.

West Coast Logo and Telecommunications Conference.

Pepperdine University, Los Angeles, March 6th and 7th, 1987

NECC '87

Philadelphia, PA June 24-26, 1987

CLIME will be holding one of the "Birds of a Feather" session at NECC. We hope to schedule it not to conflict with the general Logo session. Time and place to be announced.

Council for Logo in Mathematics Education

445 Broadway, Hastings on Hudson, NY 10706
