Logo Extends Itself

The President's Message

by Ihor Charischak

Want to get more involved with CLIME? Would you like to participate in the annual delegate assembly meeting in Nashville next April? If so, you can join CLIME's NCTM representative Lew Romagnano at the meeting where CLIME

From the Editor

by Gary S. Stager

I am honored to be the new Editor of the CLIME News and look forward to bringing powerful ideas to the CLIME membership. I am grateful to Ihor Charischak for asking me to accept this new responsibility and for having founded CLIME, an organization with enormous potential for influencing the direction of progressive mathematics education.

I apologize for the lateness of this issue. The changing of the guard has been much more time-consuming than either Ihor or I had expected. As long as you share your ideas, articles, and microworlds with us, the next regular issue of the CLIME News will be published in April and the Annual Microworld Issue will be mailed in June.

The CLIME News is the hometown newspaper of the Logo and mathematics community and we are dependent on your news and views.

We're Not Dead Yet!

This is a very exciting time for both Logo and constructivist math education. Recent proposals for educational reform from all sectors of our society echo many of the messages the Logo community has espoused for more than two decades. Even President Bush is touting the NCTM Standards as a model for other reform efforts.

In this Issue:

Reflections, From the Editor.....	1
Letters.....	2
New Books.....	9

Feature Articles:

<i>Yet Another Look at the Tower of Hanoi</i>	3
<i>Introducing LogoEnsemble</i>	4
<i>LogoEnsemble Polygon Maker</i>	5
<i>New LogoEnsemble Math Primitives</i>	5
<i>There Must be 50 Ways to Draw a Circle</i>	6
<i>LogoEnsemble π Approximation Experiment</i>	8
<i>An Old Algorithm for Multiplication</i>	12
<i>The Battle of the Functions</i>	14
<i>Playing the Game</i>	15
<i>New Terrapin Mac Logo</i>	16

Clime News is a tri-annual publication of the Council for Logo in Mathematics Education, 10 Bogert Avenue, White Plains, NY 10606. Membership is \$10 (USA) \$15 (elsewhere) per year. CLIME is an affiliated group of the National Council of Teachers of Mathematics. Ihor Charischak, President and Treasurer, Lew Romagnano, NCTM Representative, Gary Stager, Editor.
